PROFESSIONAL SUMMARY

Around **4 years of experience** in **software engineering**. I am a skilled **Frontend Developer** specializing in **HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap, JavaScript (ES6+), TypeScript, React.js, Next.js, React Native, Node.js, Redux Toolkit, RTK Query, TanStack Query, REST APIs, Firebase Authentication, MongoDB, and Git**. I create **responsive, user-focused interfaces** using **Figma, Adobe XD, and Photoshop**, integrating APIs and building interactive web and mobile applications. I am also experienced with **AI-assisted development and modern AI tools such as OpenAI Codex, Claude, ChatGPT, and MCP (Model Context Protocol)** to accelerate development, improve workflows, assist with UI implementation, debugging, code quality, and productivity

SKILLS

HTML5 & CSS3

- Strong foundation in building **structured, semantic, and accessible webpages**.
- Experience creating **responsive designs** optimized for desktop, tablet, and mobile.

Modern JavaScript (ES6+)

- Arrow functions, destructuring, spread/rest operators, template literals, and modules.
- **Vanilla JS:** Strong foundation for creating dynamic and interactive web interfaces.
- **API Integration:** Fetch / async-await and connecting frontend with backend services.
- **Data Manipulation:** Array methods (map, filter, reduce).
- Debugging and performance optimization.
- **Task Runners & Build Tools:** Gulp.js for minification, bundling, and live-reloading.
- **Advanced UI animations** using GSAP.

Version Control

Git / GitHub: Repository management, collaboration, branch management, and merge conflict resolution.

Modern CSS

- **Responsive Design:** Expertise with media queries, Flexbox, and CSS Grid layouts.
- **Cross-Browser Compatibility:** Ensuring consistent functionality across Chrome, Firefox, Safari, and Edge.
- **CSS Frameworks:** Bootstrap, Tailwind CSS for rapid and responsive UI development.
- **Website Optimization:** Optimizing websites for fast loading, reduced resource usage, and improved SEO.

React / Next.js

- Building **scalable web applications** using **React, Next.js, and TypeScript**
- Developing **reusable, component-based UI architecture**.
- State Management: **Context API, Redux Toolkit (RTK)**, **RTK Query, Zustand**.
- Performance Optimization: **lazy loading, code splitting**, and **React hooks**.
- Experience working with **RESTful APIs and dynamic data rendering**.
- Familiar with **modern frontend tools and best practices**.
